Senator Joseph Negron  
3500 SW Corporate Parkway, #204  
Palm City, FL 34990

Dear Senator Negron, 

I have attended a number of meetings where the prospect of incorporating Hobe Sound into a township has thoroughly been discussed.

I am convinced that the vast majority of the citizens in the designated area which would be included in the proposed town are responsible citizens who are determined to maintain their high standards of living. They live in a unique area of well-kept homes with an excellent athletic facility. They want to maintain the "Home Town" atmosphere. So many other small towns in south Florida have grown far beyond what sensible zoning should allow.

The common goal of the residents of the proposed Hobe Sound Township is to maintain what they have: a very special area that fits perfectly into a small town with local representation.

I urge your continuing support of the concerned residents wishes to incorporate.

Sincerely,

  
Nathaniel Reed
